Issue 09

Hadi, Bonjour and Hello,

Happy November! I hope you all had a wonderful weekend.

McLeod would like to share our extreme gratitude to our town for it's incredible support of our kids during our "COVID Halloween." The treats and extras they provided for our students were generous to say the least. Wow!! One student said it best when she said, "Our town must really love us!" Thank you Vanderhoof!!

McLeod and SD91 are looking at the possibility of accessing dollars for refurbished computers for homes and/or low cost/free internet for families in need. We are gathering some information about the need. If this is something that would benefit your family, please let me know. You can just send me a quick text at 567-8539. All information will be kept confidential.

It is our goal to work together with you and the kids to help our McLeod students become children and adults who can take on the world. Please feel free to contact the school if you ever have any questions or concerns. **WE'RE ALL IN THIS TOGETHER!**

Proud to be McLeod
Ms. L. Hart

I hope something unexpectedly good happens to you this week.

CONTACTING ME

Each year I ask parents to connect with me by text. I have great plans to be able send you all pictures of your kids doing great things around the school.

Turns out, I need to carry my phone around more to get that done. ☺ That being said, I really do like to be able to contact parents by text when needed. Please send me a text at 250-567-8539 so I can add you to my contacts.

~Ms. Hart

Daily Health Check

1. Key Symptoms of Illness*	Do you have any of the following key symptoms?	CIRCLE ONE	
	Fever	YES	NO
	Chills	YES	NO
	Cough or worsening of chronic cough	YES	NO
	Shortness of breath	YES	NO
	Loss of sense of smell or taste	YES	NO
	Diarrhea	YES	NO
	Nausea and vomiting	YES	NO
2. International Travel	Have you returned from travel outside Canada in the last 14 days?	YES	NO
3. Confirmed Contact	Are you a confirmed contact of a person confirmed to have COVID-19?	YES	NO

If you answered “YES” to one of the questions included under ‘Key Symptoms of Illness’ (excluding fever), your child should stay home for 24 hours from when the symptom started. If the symptom improves, your child may return to school when they feel well enough. If the symptom persists or worsens, seek a health assessment.

If you answered “YES” to two or more of the questions included under ‘Symptoms of Illness’ or your child has a fever, seek a health assessment. A health assessment includes calling 8-1-1, or a primary care provider like a physician or nurse practitioner. If a health assessment is required, your child should not return to school until COVID-19 has been excluded and symptoms have improved.

When a COVID-19 test is recommended by the health assessment:

- ☐ If the COVID-19 test is positive, your child should stay home until you are told by public health to end self-isolation. In most cases this is 10 days after the onset of symptoms. Public health will contact everyone with a positive test.
- ☐ If the COVID-19 test is negative, your child can return to school once symptoms have improved and they feel well enough. Symptoms of common respiratory illnesses can persist for a week or more. Re-testing is not needed unless you develop a new illness.
- ☐ If a COVID-19 test is recommended but is not done because you choose not to have the test, or you do not seek a health assessment when recommended, and symptoms are not related to a previously diagnosed health condition, your child should stay home from school until 10 days after the onset of symptoms, and then they may return if they are feeling well enough.

If a COVID-19 test is not recommended by the health assessment, your child can return to school when symptoms improve, and they feel well enough. Testing may not be recommended if the assessment determines that the symptoms are due to another cause (i.e. not COVID-19).

If you answered “YES” to questions 2 or 3, use the COVID-19 Self-Assessment Tool to determine if you should seek testing for COVID19.

A health-care provider note (i.e. a doctor’s note) is not required to confirm the health status of any individual.
